
SCID, Angels for Life Foundation

Call for Proposals 2021-2022

SCID, Angels for Life Foundation (SCID Angels) is announcing a call for research proposals for a one-time grant to be awarded in 2022. SCID Angels will award a grant, with a maximum of \$25,000, for one proposal.

Article I Areas of Interest

- 1) New and innovative curative treatment approaches for Severe Combined Immune Deficiency (SCID) with the goal to improve long-term outcomes and/or reduce treatment related long-term complications, thereby improving quality of life post treatment.
- 2) Innovative approaches aimed at improving the diagnosis, the treatment, or maintaining the treatment continuity of Severe Combined Immune Deficiency (SCID) patients, within marginalized communities. Marginalized communities are those excluded from mainstream social, economic, educational, and/or cultural life. Examples of marginalized populations include, but are not limited to, groups excluded due to race, religious affiliation, ethnicity, gender identity, sexual orientation, age, physical ability, language, remote location and/or immigration status.

Article II Conditions of The Grant

- 1) Eligible applicants should hold a Ph.D. or M.D degree. Applicants should be full-time permanent faculty members or post-doctoral fellows with a degree in fields related to SCID including, Immunology, Hematology, Cell Biology, Medicine, Biochemistry, Translational Research, or a similar field, at a research institute within the United States or Canada.
- 2) The project should be carried out within 1 year from initial funding.
- 3) The Grant Recipient/Primary Investigator must make proper acknowledgements in presentations and publications resulting from the work supported by SCID, Angels for Life Foundation. The grant recipient will notify SCID Angels of any publications resulting from any work supported by the grant.
- 4) The Grant Recipient/Primary Investigator must submit a final written progress report to SCID, Angels for Life Foundation at the conclusion of the award period. The recipient may also be asked to present the results of their research at a future SCID, Angels for Life board meeting.

Call for Proposals 2021-2022

5) Permitted expenses include a contribution towards the salary of the primary investigator, co-investigators, and support staff, plus equipment and supplies specifically required to complete the project's aims. In addition, the costs associated with the publication of the research are permitted. Institutional Overhead Payments (IOP) may be requested and should be included in the amount requested, IOP shall not exceed 7.5%: IOP will be paid out of the amount funded, not in addition to it.

Article III Application and Selection Process

- 1) All applications must be submitted in English
- 2) Required Documents:
 - A) SCID, Angels for Life Foundation Research Grant Application Form
 - i) Investigator Information
 01. Name and contact information of Primary and any Co-Investigators along with name and address of the Institution(s)
 02. Name of the party responsible for the research location, facility space, and/or equipment, if applicable
 - ii) Applicant's Personal Information
 01. Summarize your training to date
 02. Comment on your specific clinical research interests, limit length to approximately 1 page
 03. CV of principal investigator
 04. A List of prior relevant publications may be included but is not required
 - iii) Detailed Research Proposal
 01. Project timeline including percentage of time dedicated to this trial
 02. Selection of Area of Interest
 03. Description of how the outcome of this research will support the Area of Interest
 04. Description: Outline the specific aims, background, methodology, purpose, and goals of the intended project
 05. Budget and Budget Justification, limit length to approximately 2 pages
